1. Transmitted under separate cover are the accountings for the AECASSOWARY 1 newspaper for the period January-June 1954 (last half of fiscal year 1954).

2. It will be noted that a separate report on the composition of the personnel employed by the newspaper is not included in this dispatch. It is not included because the personnel situation remains substantially as reported in the above reference (which deals with the newspaper accountings for the first half of the fiscal year 1954), except for the following:

- a. Identity 1 was fired because his political party (URDP/Left) took an Anti-American attitude in February, 1954, in connection with the AECASSOWARY 1-supported split in AECAVATINA 6.
- b. Identity 2, hitherto employed on a part-time basis, was given Identity 1's former position, with an increase in pay equal to the sum Identity 1 used to get (350 DM monthly).
- c. Identity 3 and Identity 4 were taken on as part-time contributors, sharing the salary formerly given to Identity 2 (270 DM monthly).

3. It will also be noted that no new circulation data are included in this report. This is so because there has been no significant change in circulation data as reported in the above reference.

4. The increase in expenditures reported in the second half of fiscal year 1954 is due to financial aid given by AECASSOWARY 1 to Identity 5 as a result of the political struggle in February 1954, wherein that paper aligned itself with AECASSOWARY 1 politically. With the normalization of Identity 5 finances, it is expected that the aid given it will be returned to AECASSOWARY 1.

5. AECASSOWARY 3 stated it is expected that publishing costs for the AECASSOWARY 1 newspaper will increase in that Identity 6, the ZRELOPE graduate formerly employed by UUARC in Trieste and Berlin, has been relieved of his post

with UUARTC and in consequence added to the newspaper staff, where he will also do research in coordination with the study group organized by AECASSOWARY 2.

6. ECQA-38858, dated 8 April 1954 (for [ ]). The enclosed finance accountings, it is believed, clarify why there was a shortage of 14,000 IM in the accountings for the first half of Fiscal Year 1954. The allotment for December, 1953 was not turned over to AECASSOWARY 1 until February, 1954, and an increase in income for December could not have been reported in the earlier accountings, which were restricted to the first six months of Fiscal Year 1954. Please note that the accounting for February 1954 shows that 28,000.00 IM were transmitted in that month. In regard to the three-mark differential between 23,320.86 and 23,317.86 (see ECQA-38858), these figures refer to the total from sales of newspapers (not of advertising) for the calendar year 1953. The discrepancy has been called to the attention of AECASSOWARY 3, who has promised to look into the matter with the newspaper's bookkeeper.

7. Authority to transmit additional subsidies is requested.
